

HOMESTEAD 2015 DRY RIESLING

---

# HARVEST:

Fruit for this wine was harvested on the 4th of April from the Homestead vineyard. Due to lower crop loads we were able to hand harvest the fruit at full maturity and with outstanding purity, concentration and intensity.

## HOMESTEAD 2015 DRY RIESLING

---

# WEATHER:

Growing season 2015 will be one that will be remembered for years to come. Sunny, warm weather graced the region and our vineyards during all critical growth stages and carried on right through vintage till late April. Little to no rain during the summer months meant the bunches produced were generally smaller, with tight berry architecture and with smaller

concentrated berries. This led to intense ripe flavours developing, and corresponding fruit purity in the final blended wines. Harvest progressed perfectly with little to no pressure to pick, and we were able to leave fruit out on the vine to get the most from the growing season. 2015 will be long remembered as one of the best vintages in recent years at Jackson Estate.
